<b>Q4: Do you believe it is the ultimate obligation of City Council members to represent and advocate for their constituents in the neighborhoods they represent, rather than expedite the Mayor's office or private businesses that may benefit from these types of transactions between governmental entities?</b>	Yes,  Comment: I meet with neighbors all the time. I hope that I get elected and, if I do, I will be holding neighborhood meetings in my office on a weekly basis, getting interest groups together so that we can brainstorm ideas to improve our city.
<b>Q5: Do you believe that preserving strong public neighborhood schools in each of our communities is very important to the viability and strength for the future of our neighborhoods?</b>	Yes,  Comment: Most definiitely. I plan to meet with principals and parents, find out what is needed in our schools, and work on how to get them what they need.

PAGE 5: I. DESIGNATION OF UNDESIGNATED PARKS, PROTECTION OF OPEN SPACE, MORE PARKLAND

**Q6: INC, in response to a request from the Department of Parks and Recreation, formed a committee to aid the department's effort to designate undesignated parks. While this committee has made progress over the past two years, the work is not finished. Would you support a concerted effort within all city departments affected to complete the designation of all undesignated Denver parks that are legally available for designation?**

Yes,

Comment:

The nearest two parks near my house both require crossing very busy streets and then walking 3-4 blocks. The parks are not readily available for the enjoyment of me or my neighbors. Mostly, what we do is just walk around the neighborhood, which I don't care to do.

**Q7: In addition to designating undesignated parks, we also need to prevent the transfer of open space within designated parks to institutions within parks. Over many years, open space in designated parks has been re-allocated by the Manager of Parks and Recreation to institutions within parks such as recreation centers, museums, and zoos. It is important that open space within parks is protected. Would you ask for policy changes to protect open space within designated parks?**

Yes

**Q8: There is inadequate urban parkland in Denver given the size, density, and expected growth of Denver's population. For example: The city had 555,000 residents in 2000 and is projected to have 700,000 in 2020. While the Hancock administration may add additional parkland to the park system, the current plans focus on the acquisition of land at the periphery of Denver. We need parkland in the center of the city where the population is growing and "density" is a goal of the administration's urban development plan. Would you support the acquisition of additional parkland and open space within the center of the City of Denver?**

Yes,

Comment:

I would also support the acquisition of additional parkland and open space in established neighborhoods, like mine.

**Q9: The urban parkland that does exist is viewed increasingly as a site for multiple and oftentimes conflicting purposes-- opportunities to experience nature, spaces in which teams can play, and sites for large festivals. These uses of the same land has created problems within our parks including damage to parkland and vegetation, limitation of public access to parks, and distress for neighborhoods bordering parks (eg., unacceptable levels of noise, traffic congestion, threats to public safety, and problems parking). As a result, a site is needed for large ticketed events such as festivals that is not located within neighborhoods. Well-lighted playing fields with bathrooms and parking outside of city parks are also required. Would you support the development of a Festival Site?**

Yes,

Comment:

I strongly support more than one festival site, perhaps one in each part of Denver. In Bear Creek Park on West Dartmouth Avenue, we have some good tennis courts, but no bathrooms. If elected, I will work very diligently to get bathrooms in this park and in every park.

**Q10: Would you explore opportunities for and support the development of playing fields outside of city parks for Denver citizens?**

Yes

**PAGE 7: III. USE OF RECYCLED WATER IN PARKS**

**Q11: Would you ask the City administration to convene a panel of independent experts in plant physiology, soil chemistry etc. to evaluate the safety of the type of recycled water used in our parks and to report the results to the public?**

Yes,

Comment: This should have been done long ago.

**Q12: If the risks of the type of recycled water currently in use are found to be too high, would you support all steps necessary to eliminate these risks?**

Yes

**PAGE 8: IV. PARK ADMINISTRATION**

**Q13: Effective government requires citizen engagement. INC has received multiple complaints and over many years pertaining to the use of parks. Complaints include the difficulty citizens have in influencing park policies. A new Office of Special Events has been formed by the Mayor and its function will have an impact on what events occur in parks. Would you advocate for INC representation on an Advisory Board for the Office of Special Events?**

Yes

**Q14: Would you direct funds to the Department of Parks and Recreation to ensure enforcement of park rules and regulations within the entire park system?**

Yes

**PAGE 9: V. PARK FUNDING**

**Q15: Denver's park and parkway system is grossly under-funded. A broad range of funding sources must be pursued in order to sustain and to expand Denver' park system. This funding includes local and state-level dedicated revenue sources. Denver is surrounded by municipalities that fund their parks with a tax levy dedicated to parks. Would you support a tax levy to provide a stable funding source with which to acquire land for parks, open space, a festival site, playing fields, and for maintenance of all these for Denver's park system?**

Yes,

Comment:

We may have to look at instituting an employment tax.

**PAGE 11: Discretionary Projects**

**Q16: If elected, would you support an increase to Public Works funding for discretionary projects in neighborhoods?**

Yes,

Comment:

However, I would keep close control on the discretionary projects selected.

**PAGE 12: Commitment to Vision Zero**

**Q17: Would you support Denver joining the ranks of cities that target elimination of traffic deaths and serious injuries as a moral priority by adopting a Vision Zero approach?**

Yes,

Comment:

If this methodology leads to fewer traffic deaths, I am in favor of it.

**PAGE 13: Best Practices regarding sidewalk installation and maintenance**

**Q18: Would you support Denver pursuing and implementing best practices from other cities regarding sidewalk installation and maintenance, with the goal of increasing walkability?**

Yes,

Comment:

I know that Denver is now engaged in a three-year project to put ramps on every sidewalk corner in Denver, and this effort is costing thousands of dollars each year, with more money needed in the future for maintenance.
